- CSS, SASS
- HTML
- BEM
- JavaScript
- Vue
- PINNIA
- GIT, GitHub
- VUE ROUTER
- REST API

Education

• Bachelor of Software Engineering
Vinnytsya National Technical University Sep 20022 - Jun 2026

• Frontend developer Apr 2024 - Oct 2024

Experience

• Pet- project: Spotify Clone

• Description: Developed a web application for music with functionality similiar to Spotify.

Technologies: Vue.js, Spotify Web API, HTML, CSS, SCSS, JavaScript

• Features

- Search for tracks, albums, and artists.
- PLayerback of music tracks with minimal artist information display.
- Integrated music player whith track-switching functionality to Spotify
- Responsive design for various devices.

• Result: Created an interactive application showcasing basic features of a music streaming platform and integtation whith Spotify Web API. The project allows users to search for music, view artist information, and play track through a custom-build player.
